

Figure 2: Evidence Level Distribution — WITHDRAWN (2026-06-14 audit)

WITHDRAWN

2026-06-14 fabrications audit: the aggregate Evidence-Level-A distribution self-grade (and its exceeds-target comparison) is withdrawn.

The initial pass overstated Level A and several source entries were removed in the audit, so no aggregate Level-A percentage is claimed pending re-verification. Per-source evidence levels are provisional.

See FIGURES-AND-TABLES.md (Figure 2 strike note) and analysis-bundles/cost-reality-reference.md. The original draft chart is preserved in git history (pre-2026-06-15).
